## Africa to embrace MCCL Global Outreach

*Speaking tour to reach Tanzania, Kenya, Uganda, Zanzibar*

Over the next 12 days the people of Africa will be able to see MCCL's Global Outreach in action. Executive Director Scott Fischbach will speak at meetings in four East African states, including Tanzania, Kenya, Uganda and Zanzibar, beginning Sunday, Nov. 7, 2010.

“This is a dream come true to actually meet, speak to and share directly with the pro-life contacts that MCCL GO has been working with via the Internet, phone and fax over the last 18 months,” Fischbach said. “To finally be able to work hand-in-hand with those who fight to defend the unborn and their moms in Africa is a true honor.”

The initial schedule includes pro-life addresses at an East African regional conference held at the Mbagala Spiritual Center in Dar Es Salaam, Tanzania. Meetings in Stone Town, Zanzibar, will be held with various Islamic leaders not only from Zanzibar, but also from Pemba. Several high-level meetings will take place in Kampala, Uganda; this is also where MCCL GO has been asked to speak with students at two major Ugandan universities.

The African continent is presently under siege from anti-life forces from all corners of the world. The current U.S. administration, the European Union, International Planned Parenthood Federation, Marie Stopes International and others are exerting enormous pressure on African countries to abandon the protections they have in place for the unborn and their mothers. Kenya has already lost most of its protections against abortion with the ratification of its new Constitution, approved after massive amounts of U.S. tax dollars funded the effort.

“I am excited at the opportunity to address African leaders, but I am more eager to listen to and learn from them,” MCCL GO’s Fischbach said. “The population of Africa is very young; African culture is a true culture of life that needs to be protected and defended. It is our hope that MCCL Global Outreach can play some part in sharing with African leaders the knowledge and expertise that we have gained over these last 42 years of pro-life work.”

MCCL GO is a pro-life global outreach program of the Minnesota Citizens Concerned for Life Education Fund with one goal: to save as many innocent lives as possible from the destruction of abortion. Learn more at [www.mccl.org](http://www.mccl.org).
